RIZKY PUTRA JUNIOR

Indonesia,Jakarta | +62 813-8044-3523 | rizkyputrajunior@gmail.com

Software Engineer with a remarkable 7-year journey in the field, I excel in the entire spectrum of software development from envisioning robust architectures and hands-on coding to rigorous testing and ongoing system maintenance. My skill set, enriched with proficiency in diverse platforms and languages, reflects a commitment to staying at the forefront of technological advancements. What sets me apart is not just individual expertise but also successful leadership in steering development teams to achieve collective excellence. Whether orchestrating independent projects with self-management finesse or seamlessly collaborating within a team, I consistently deliver results. Ready to embrace new challenges and contribute my wealth of experience to drive innovation.

WORK EXPERIENCES

Technical Leader   Nov, 2023 – Present

PT Motiolabs Digital Indonesia – Bandung Indonesia

- Led a dynamic team of 4 in myDigiLearn Telkom Indonesia, Pioneered the entire development journey, orchestrating everything from DevOps architecture, testing to smooth development workflows.
- Product Technical Leader for Learnhub, a Software as a Service Application. Orchestrated seamless collaboration from development stages, testing to DevOps, ensuring a streamlined and efficient process.
- Managed CI/CD and fine-tuned 5+ Kubernetes clusters on AWS EKS, guaranteeing top-notch availability, scalability, and fault tolerance
- Collaborate with end user, stakeholder, Business Analyst and System Analyst for Product Requirements
- Documenting and Review all Software Architecture and Procedure from Golang Microservices, React Typescript Microfrontends, ERD, K8s, AWS EKS, AWS EC2, Cypress, Docker and CI/CD

Senior Software Engineer   Jan, 2021 – Sep, 2023

PT Eden Pangan Indonesia – Jakarta, Indonesia

- Lead a development team to initialize and developed Microfrontends Architecture using SystemJS ImportMap, Single-SPA and VueJS to reach production-ready application
- Established and maintained CI/CD pipelines, showcasing dedication to seamless integration and delivery. Orchestrated and managed Kubernetes clusters on AWS for enhanced deployment processes and scalability.
- Implementing automatic print from scratch for Warehouse Management System using Java as the hardware bridge, Laravel, and VueJS.
- Developed and Documenting coding standards and maintain application testing using Cypress for Dashboard system collaborated with VueJS and Golang for Finance and Warehouse system
- Reviewed and tested customer-facing prototypes before deployment, applying best practice diagnostic techniques to verify usability.

Software Developer   Nov, 2019 – Dec, 2020

PT Moonlay Technologies – Jakarta, Indonesia

- Implemented interactive internal chat system from scratch using ReactJS and collaborated with Golang backend
- Designed, developed and implemented software applications, analyzed requirements and understanding of industry technical standards.
- Involved on Data Management System project using ReactJS, Redux, MobX, SCSS & GIT
- Consulted with end user and stakeholder to gather product requirements

Software Developer   Mar, 2018 – Nov, 2019

PT Ebiz Cipta Solusi – Jakarta, Indonesia

- Involved in Mercedes-Benz Indonesia development team as a frontend developer to help build management system collaborated with VueJS and ChartJS
- Developed print system using Laravel, Golang and VueJS
- Took a lead on developing Timesheet & Attendance System collaborated with Flutter and ASP .NET Core
- Took concepts and produced design mock ups and prototypes to strengthen designs, enhance user experiences and improve site interactions.

SKILLS, CERTIFICATION & OTHER

- **Tech Stack:** VueJS, ReactJS, Flutter, Cypress, JavaScript, Typescript, Laravel, Golang, Python, NodeJS, Github, Gitlab, Kubernetes, Linux, Docker, Grafana, MERN Stack & Bash Scripting
- **Certifications:** Google Cybersecurity Professional & Cloud Computing
- **Tools:** Burpsuite, VSCode, Lens, Postman, Swagger, Lark, Figma, Slack, Mondays, ClickUp, Google Docs, Sharepoint, DevExpress, Nintex Form
- **Interest:** Penetration Testing, Cybersecurity, Network Engineering, Cloud Computing

EDUCATION

High School Diploma   2017
SMK Tunas Media, Depok
Taking up specialization in software engineering student
